Year Group: **Year Two**

# Talk to me about

Date: Autumn Term 22nd October 2026

**Our Learning Journey** – This week we have been learning about our feelings linked to dragons and how to measure objects using metric units.

| What we wanted to learn: | What we did: | What could I do at home to help me with my learning? |
|---|---|---|
| **Literacy**<br>I have published my dragon poem.<br><br>I have written a passport to get past the slobbering slime. | We looked at our dragon poems from last week and wrote up our edits using special dragon paper and handwriting pens to add to our wonderful writing wall.<br><br>On our curious quests journey, we have come across a strange character who needs special 'passports' to let us get past them. We have been making passports describing all the characters in our books, 'Daisy's Dragons' which links different dragons to feelings. | Could you write something you have done at home on some fancy paper or use a pen, to try and practice joined up writing?<br><br>Can you write a passport for a member of your family? Can you ask to look at what information is written in a real passport (ask permission first!). |
| **Mathematics**<br>I can measure length and height.<br><br>I can measure in metres and centimetres. | We went outside on the playground to draw lines using metre sticks.<br>We compared objects which are longer and shorter.<br>We used rulers and metre sticks to help us measure accurately.<br>We answered word problems about length and height. | I could ask a grown up if we can get a ruler and measure different items and order them from longest to shortest. |
| **Spelling words for this week:** once one ask friend<br>**Word Aware:** glorious jittery | | |
| Maths Mental Fluency: Number bonds to 10 and 20 | | |
| **Important messages:**<br>**INSET DAY - Tomorrow - Friday 23rd October.**<br>Happy half term. We will see you on Monday 2nd November.<br>The Year 2 Team | | |
