Wherever you are

Welcome to **Tapestry** - the original and leading Childhood Education Platform for nurseries, childminders and schools to nurture partnerships with families and support children's learning and development.

This guide aims to familiarise you with the desktop version of Tapestry, so you can start sharing in your child's learning experiences.

You must have an active Tapestry profile before you can log in and use Tapestry. If you don't have a profile, please speak to your setting/school.

## Observations

TAPESTRY

👁 Observations

The next best thing to being there: observations are **words, photos or video clips** about what your child has been up to during their day, so you can chat with them about it later. And you can **add your own observations** about your child's experiences at home too.
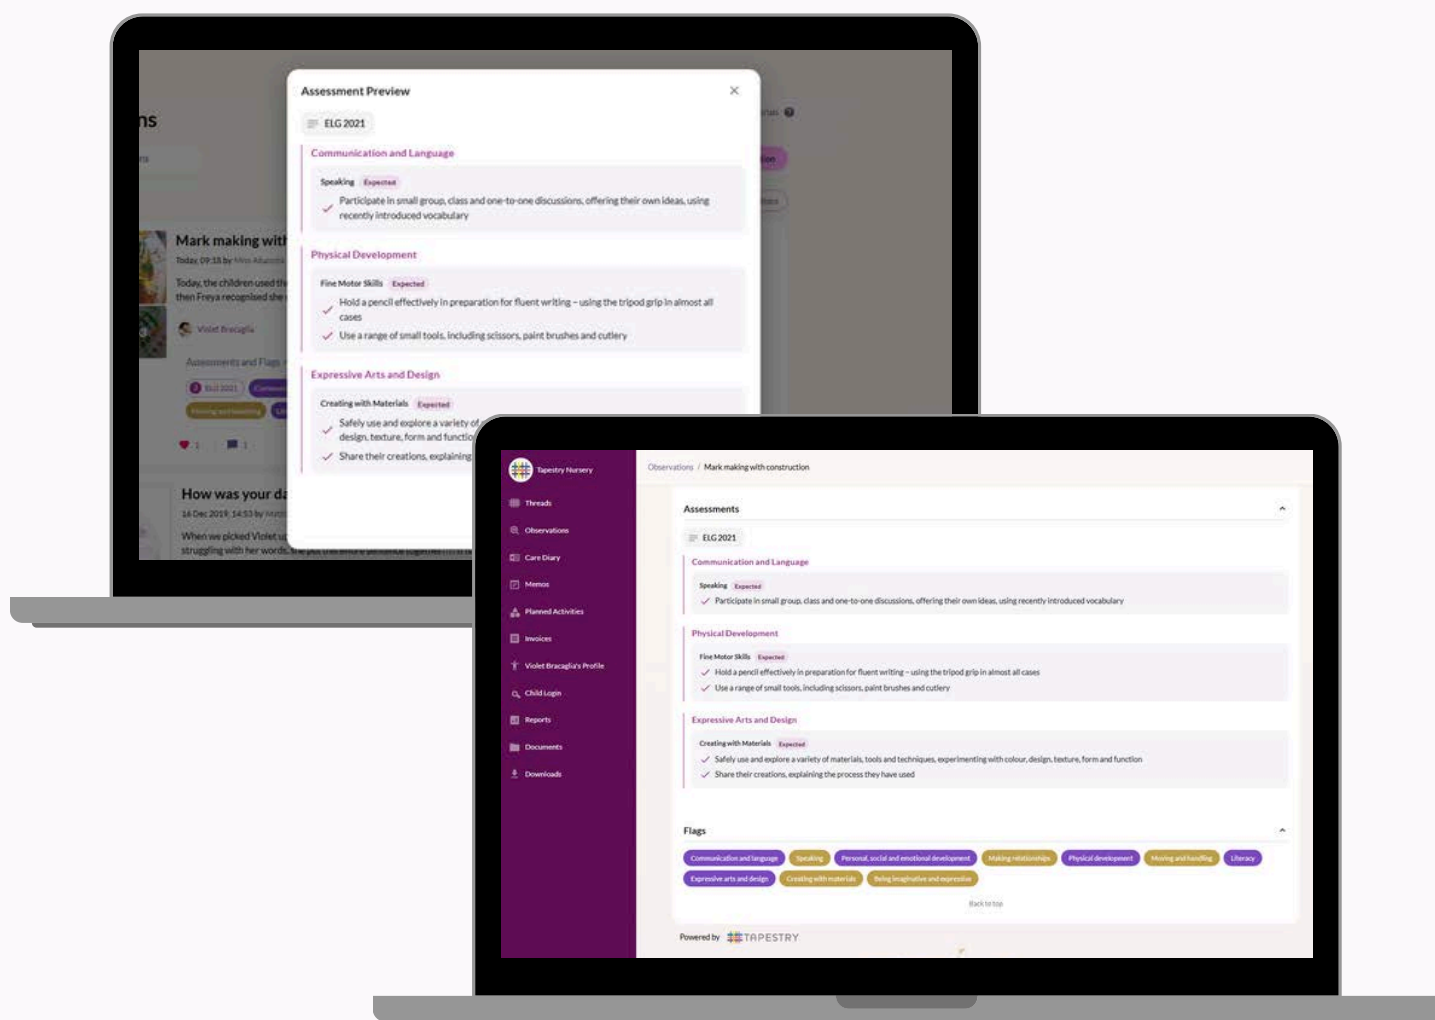

Tapestry Tip: Like and comment to engage with your child's educators.

Assessments

Assessments

See their learning and development in all areas.

Tapestry Tip: Don't focus on this too much! What matters is that your child is being supported by both you and the setting.

Reports

Reports
Read and sign your child's reports.

Tapestry Tip: Add your comments and upload additional documents - such as EHCP reports - to support your child's educators.

Detailed accident reports and clear **body maps** to keep your mind at ease.

Once the setting/school has discussed your child's accident with you, the accident report will appear in the **care diary timeline**, so you can get back to it if you need to.

Tapestry Tip: Some settings choose not to use the Care Diary and only use the Accident Form feature. If this is the case, you'll find the Accidents area in the same place as the Care Diary area - just under a different name!

Your Downloads

From time to time, your child's teachers may create PDFs of some or all of your child's observations, or ZIP files of the media within those observations. If they do, when the files are ready to be downloaded, you will be able to find them here.

You can also create a PDF of your child's observations yourself by following this tutorial.
