

What is a home learning project?

A home learning project is an activity for you and your child to carry out at home together over the term. We would like you to support your child and develop their ideas over the next few weeks to produce the best project that they can.

Your child can bring their home learning project into school by **Monday 14th December 2026** so that it can be put up in the Year 2 corridor. We have included a template if you would like to use it.

What is our Home Learning Project for Fanfares and Fairy Tales?

We would like to decorate the Year 2 corridor with coats of arms or shields. Could you design and make a coat of arms that resembles you? You could include your family name or your favourite hobbies or even your family members and pets in the design.

If you need any help with your home learning project, please see your class teacher.

My Coat of Arms
