Fire! Fire!

This half term we will be learning how to keep ourselves safe and our whole school focus is the right to be safe and cared for.

We will start our Curious Quests journey and discover new characters and adventures along the way. We will be sent challenges and obstacles to overcome by writing codes and inventuring. We will use a range of non-fiction and fiction books based around fire to help us on our quest including this one:

We will make a fire and sit around it in Woodland Rangers. We will use our senses to watch and listen to the fire carefully ready to write a poem all about fire.

In History, we will learn about the timeline for the Great Fire of London and how the fire spread. We will think about the methods used to put the fire out and we will compare these to firefighting methods used today.

In Maths, we will continue to secure our knowledge of numbers 0-10 as well as continuing to count forwards and backwards to 100. We will learn about position and direction thinking about whole, half and quarter turns. We will use the language of position, direction and motion, including left and right, top, middle and bottom, on top of, in front of, above, between, around, near, close and far, up and down, forwards and backwards, inside and outside.

In Religious Education, we will continue to learn about Christianity and how Christians celebrate Christmas. We will visit The King's Church for our Christmas Show . We will think about how Christmas is celebrated around the world.

In Science, we will be investigating materials and describing them according to their properties. We will test materials and discuss which materials are best suited for a specific purpose and why. We will continue to record the weather, thinking about how it is changing over the year.

In PE, we will be learning ways to move in dance. We will be playing target games outside.

In Art, we will learn about primary and secondary colours. We will be exploring colour mixing and drawing techniques. We will create a fire picture using the skills we have learnt.

We will be singing in rounds and learning call and response songs in Music. In Feelsville, we will explore the emotions proud and sad and in Computing we will learn to create digital art, make and share jigsaws, and use drag-and-drop tools confidently.

If you have any skills or ideas that you feel may benefit our learning journey, please let your child's teacher know. Thank you.
