Fire! Fire!

What is a home learning project?
A home learning project is an activity for you and your child to carry out at home together. We would like you to support your child and develop their ideas over the next few weeks to produce the best project that they can. Please make sure your child's home learning project is in school by Friday 4th December. ***Please make sure your projects are A4 size or smaller.***

Your home learning project is to create a ***counting picture****! Draw, paint or make a picture of a night time scene in any way that you would like to. However, your picture needs to include the correct number of objects listed here. You will need to count carefully and check that you have included all of them!*

Your picture needs to have..

1 bonfire

2 grown ups

3 fireworks

4 shooting stars

5 children

6 animals

7 houses

8 trees

9 stars

If you need any help with your home learning project, please contact your class teacher.

Can you write a number story for your picture? For example, There were 5 children and 2 grown ups at a bonfire. How many people were there altogether?
